

Lançar App na Apple Store

Configure um projeto para envio na loja.

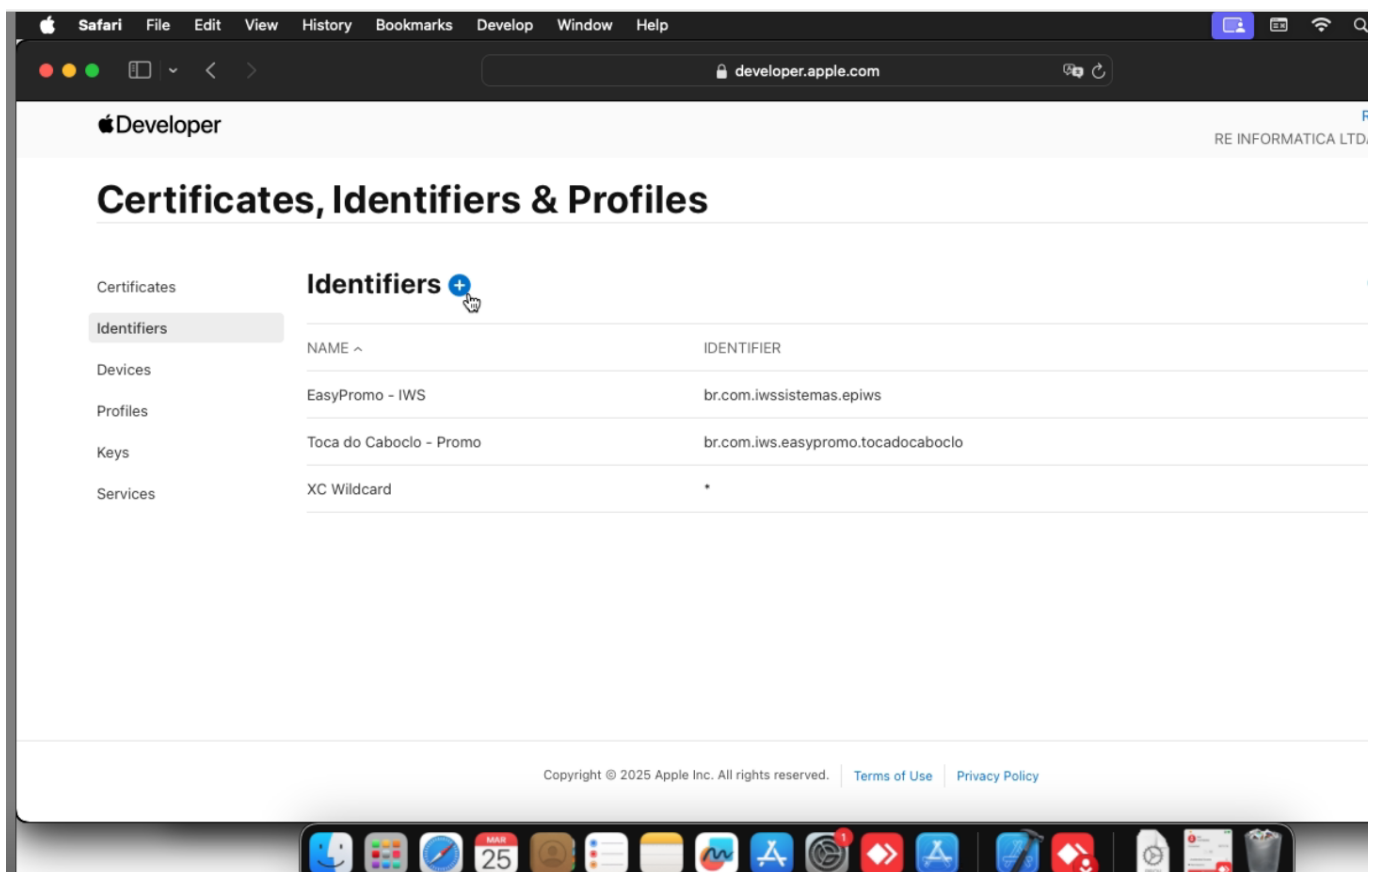

Certificado de Perfil do app

No **Safari** acesse a página [Certificados da Apple](#).

Os dados de login se encontram na planilha, a autenticação de dois fatores está ativada, mas o código é enviado direto no MiniMac como padrão, mas se for necessário tem como enviar o código no email da conta.

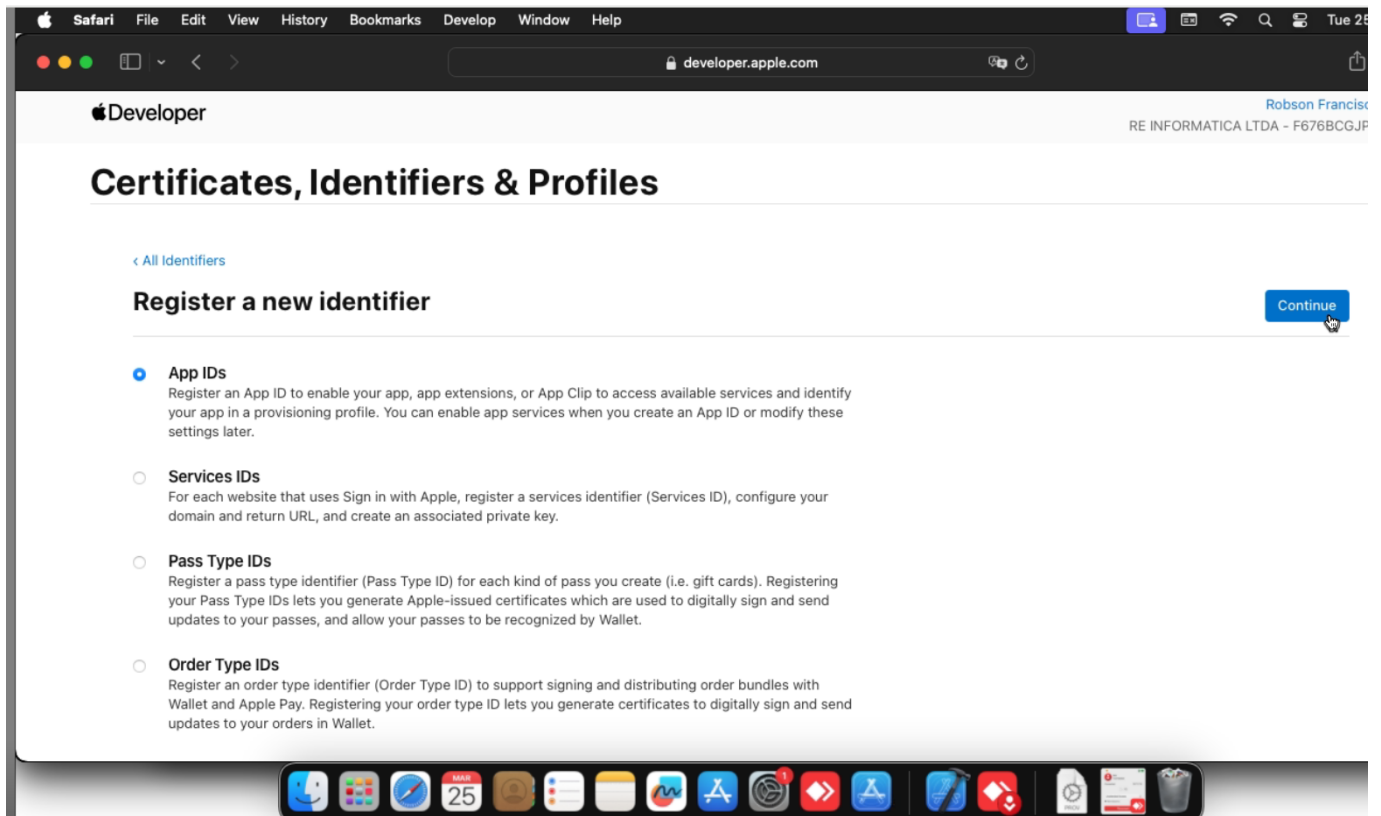

Criar a identidade do app

Clique em **Identifiers** do lado esquerdo, e depois no botão adicionar.

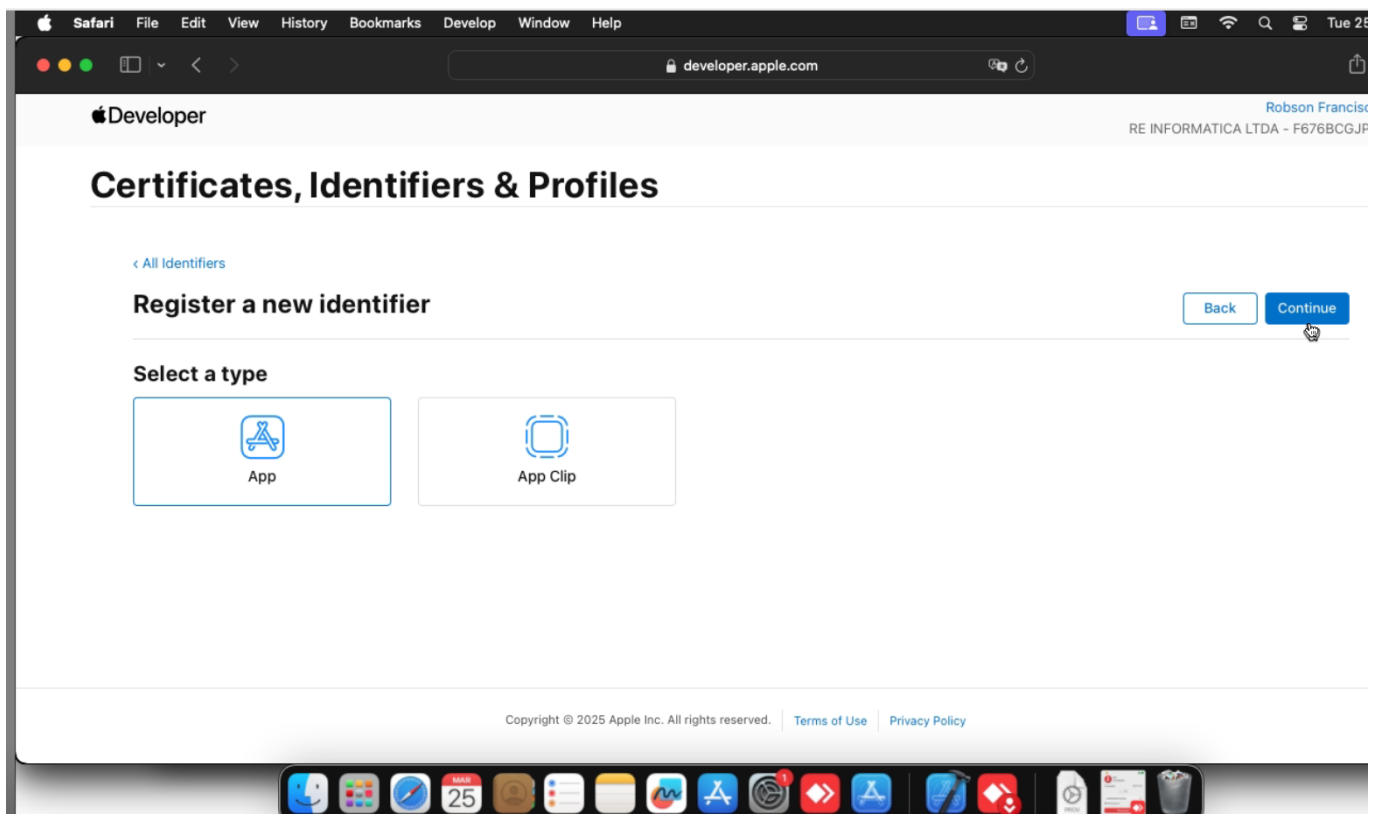

Safari - Certificados da Apple

Selecione a opção **App IDs** e depois clique em **Continue**

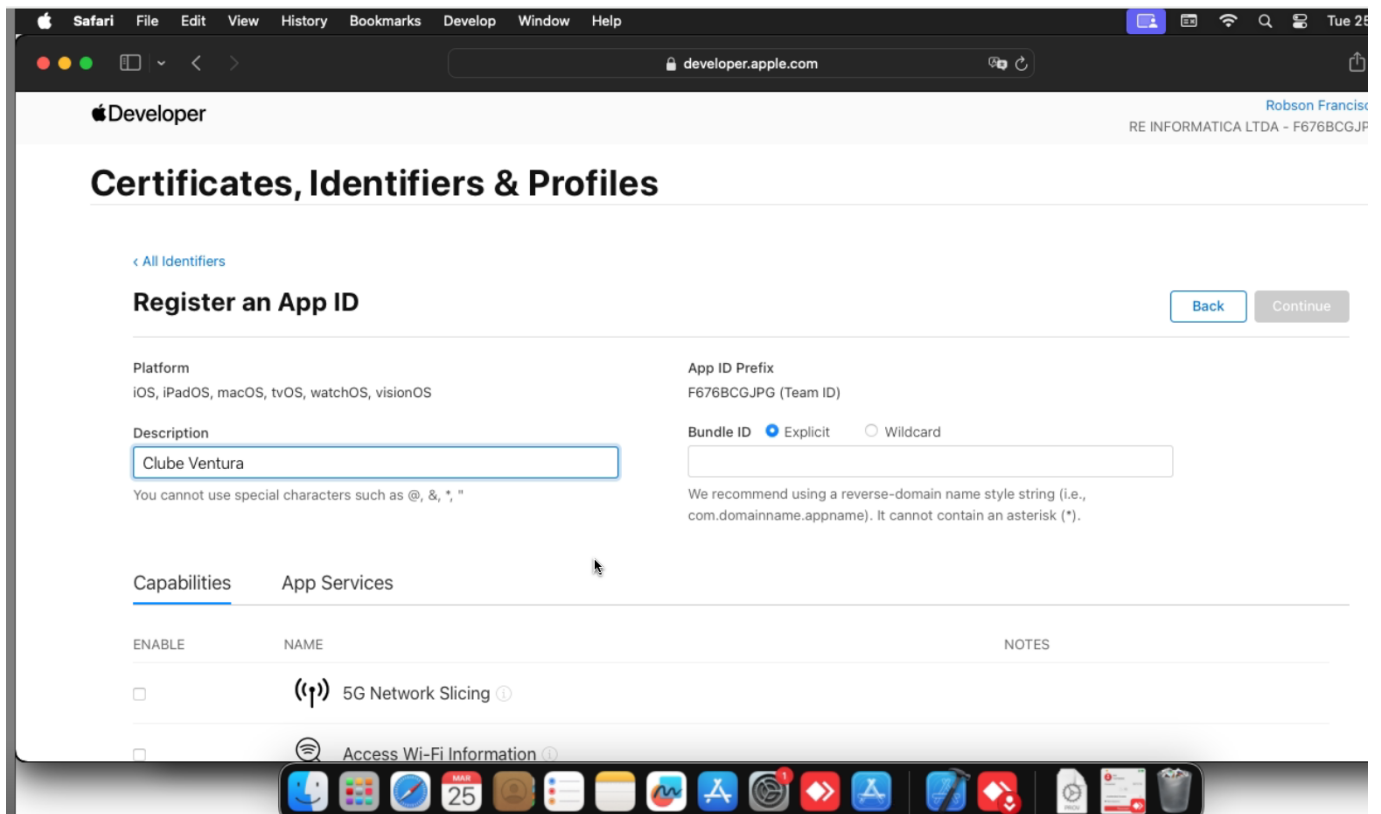

Safari - Certificados da Apple

Selecione **App** e clique no botão **Continue**.

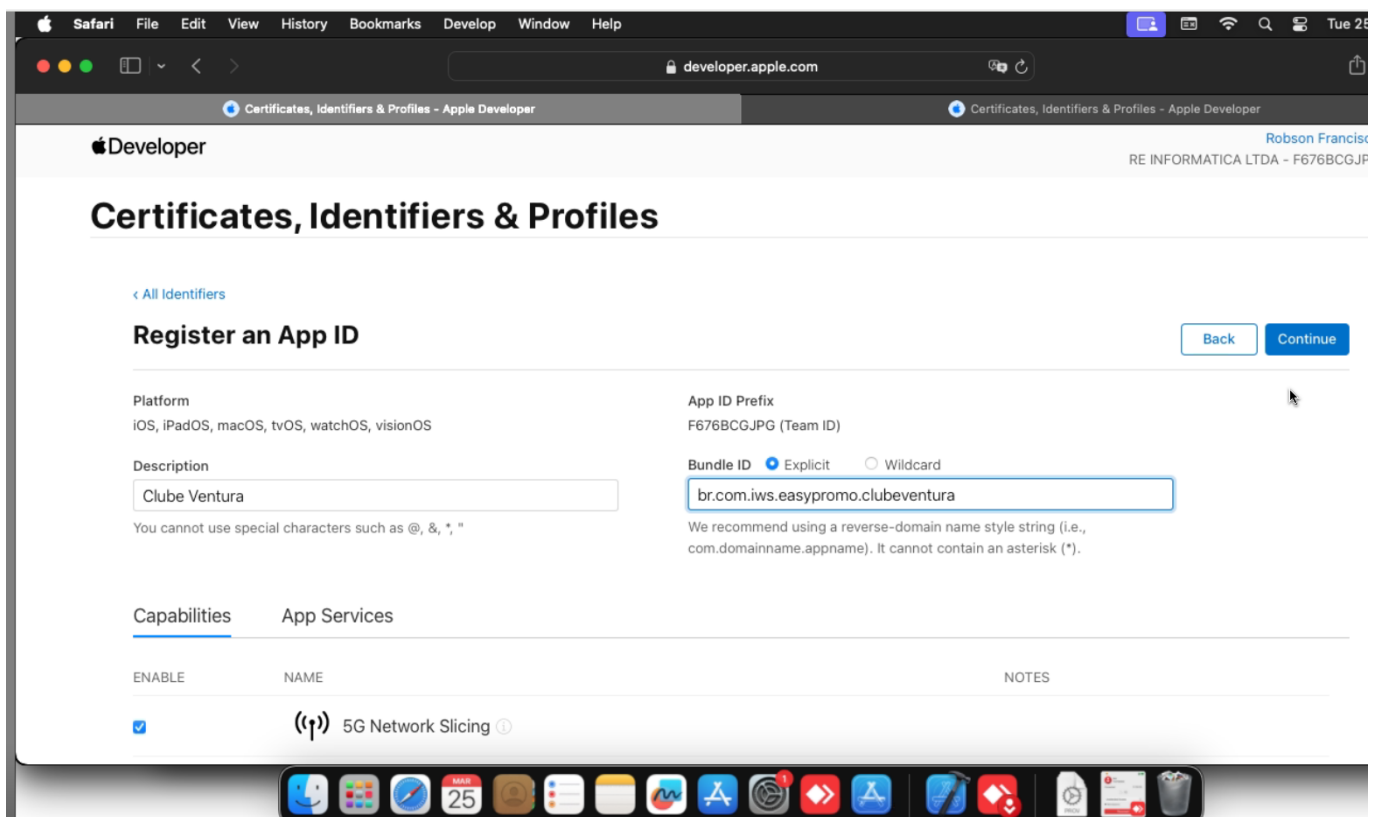

Safari - Certificados da Apple

No campo **Description** informe o nome do projeto.

Safari - Certificados da Apple

No campo **Bundle ID** informe o nome do pacote do projeto.

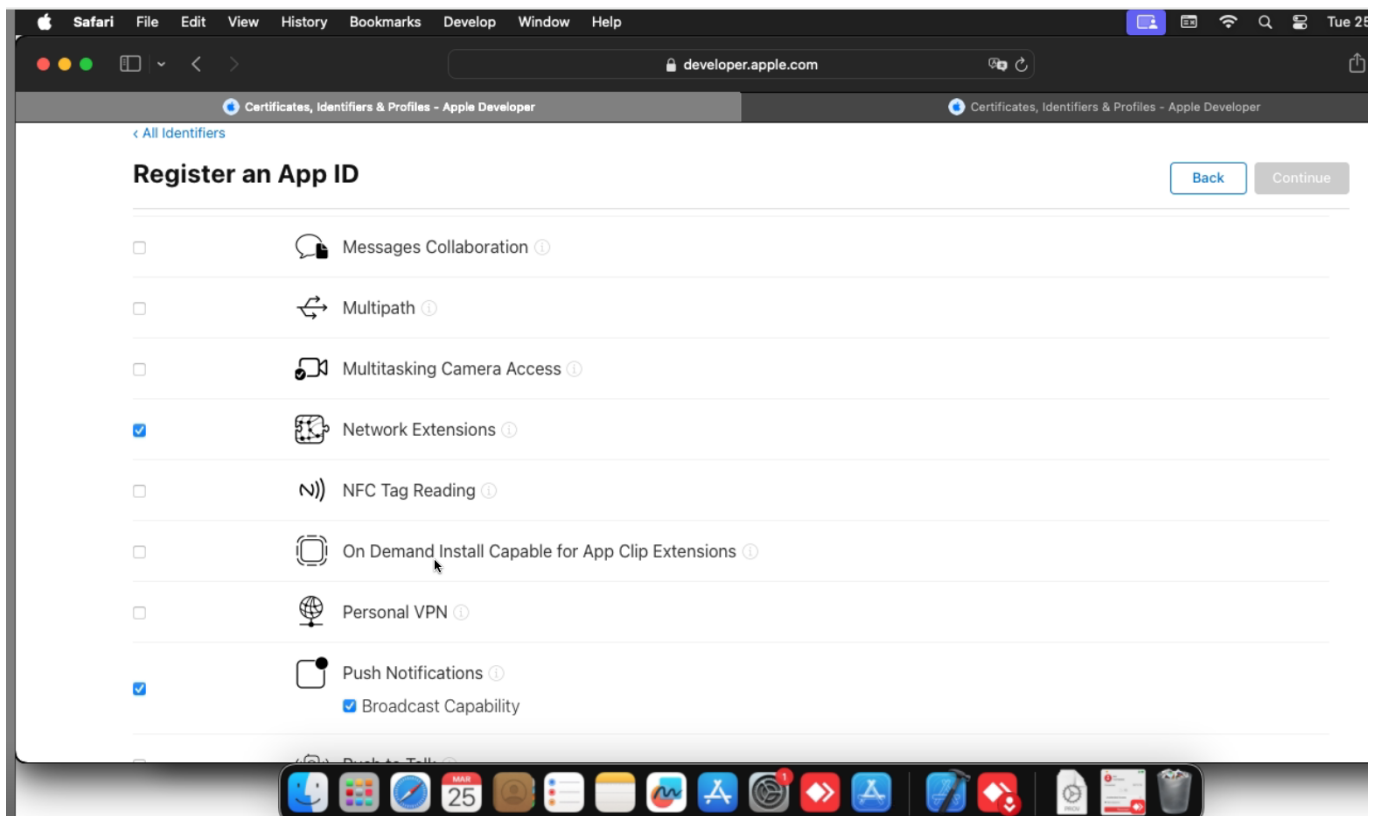

Safari - Certificados da Apple

Em **Cababilities** informe todos recursos necessários para funcionar o aplicativo. No caso do **EasyPromo** os recursos são:

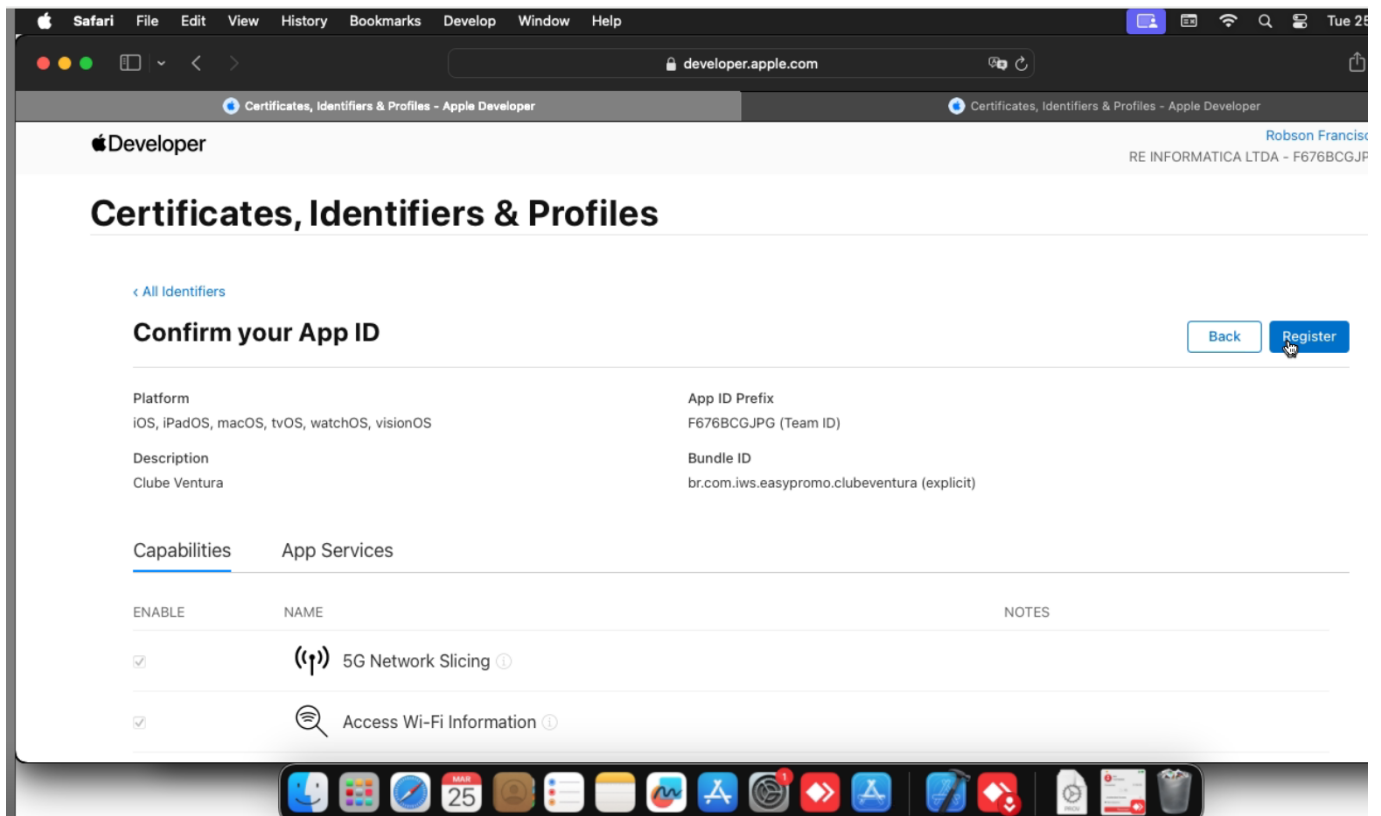

- 5G Network Slicing
- Access Wi-Fi Information
- Associated Domains
- Communication Notifications
- Network Extensions
- Push Notifications e Broadcast Capability

Esses recursos podem ser adicionados ou removidos de acordo com a necessidade do app, mas qualquer alteração também deverá ser feita do projeto no **XCode**.

Safari - Certificados da Apple

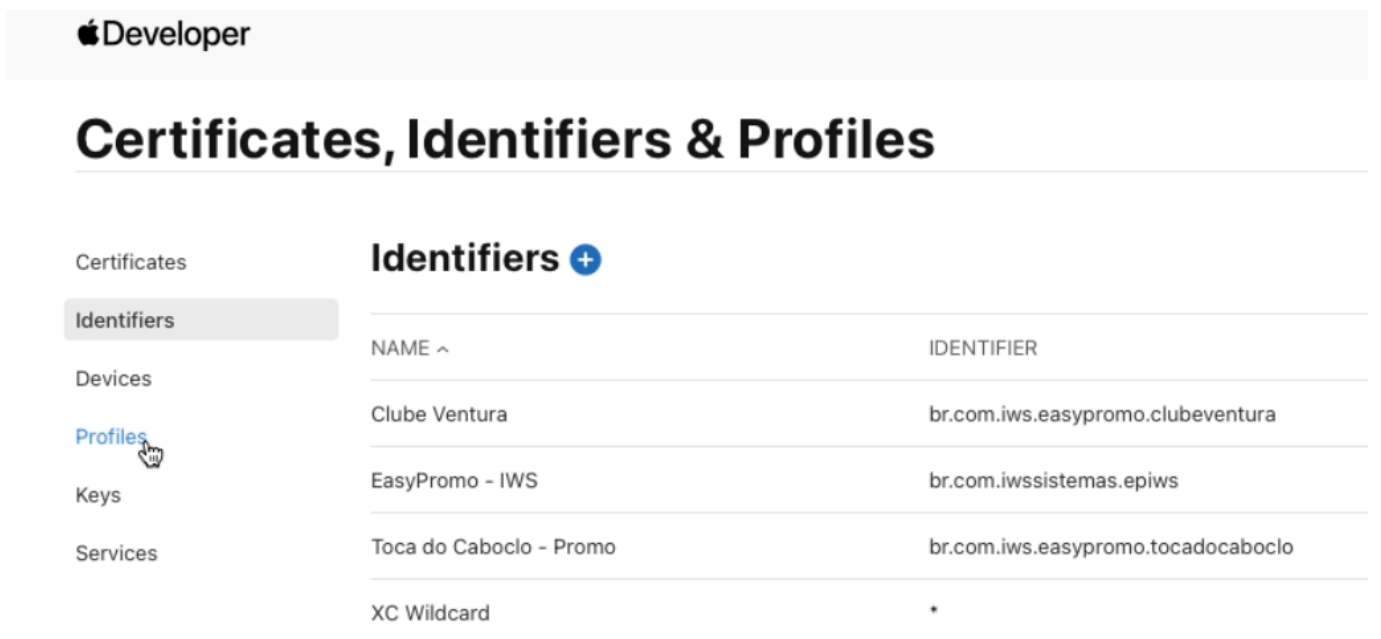

Depois clique no botão **Continue**. Depois verifique se as informações estão corretas e depois clique no botão **Register**.

Safari - Certificados da Apple

Criar o perfil do app

Voltando para pagina inicial dos certificados, clique na opção **Profiles** do lado esquerdo.

Safari - Certificados da Apple

Clique no botão para adicionar o perfil.

Select Type > Configure > Generate > Download

Select an App ID

If you plan to use services such as Game Center, In-App Purchase, and Push Notifications, or want a Bundle ID unique to a single app, use an explicit App ID. Uploading apps to the App Store requires an explicit App ID. In the future, wildcard app IDs will no longer appear when creating an App Store provisioning profile.

App ID: 4 App IDs
 ✕ | ▾

Safari - Certificados da Apple

Na seleção de certificados, o certificado válido é a segunda opção. Selecione o certificado e clique no botão **Continue**.

Safari - Certificados da Apple

Configurando o EasyPromo - WebView

Copie do projeto modelo um novo projeto na área de trabalho do MiniMac.

MiniMac - Sonoma - Área de Trabalho

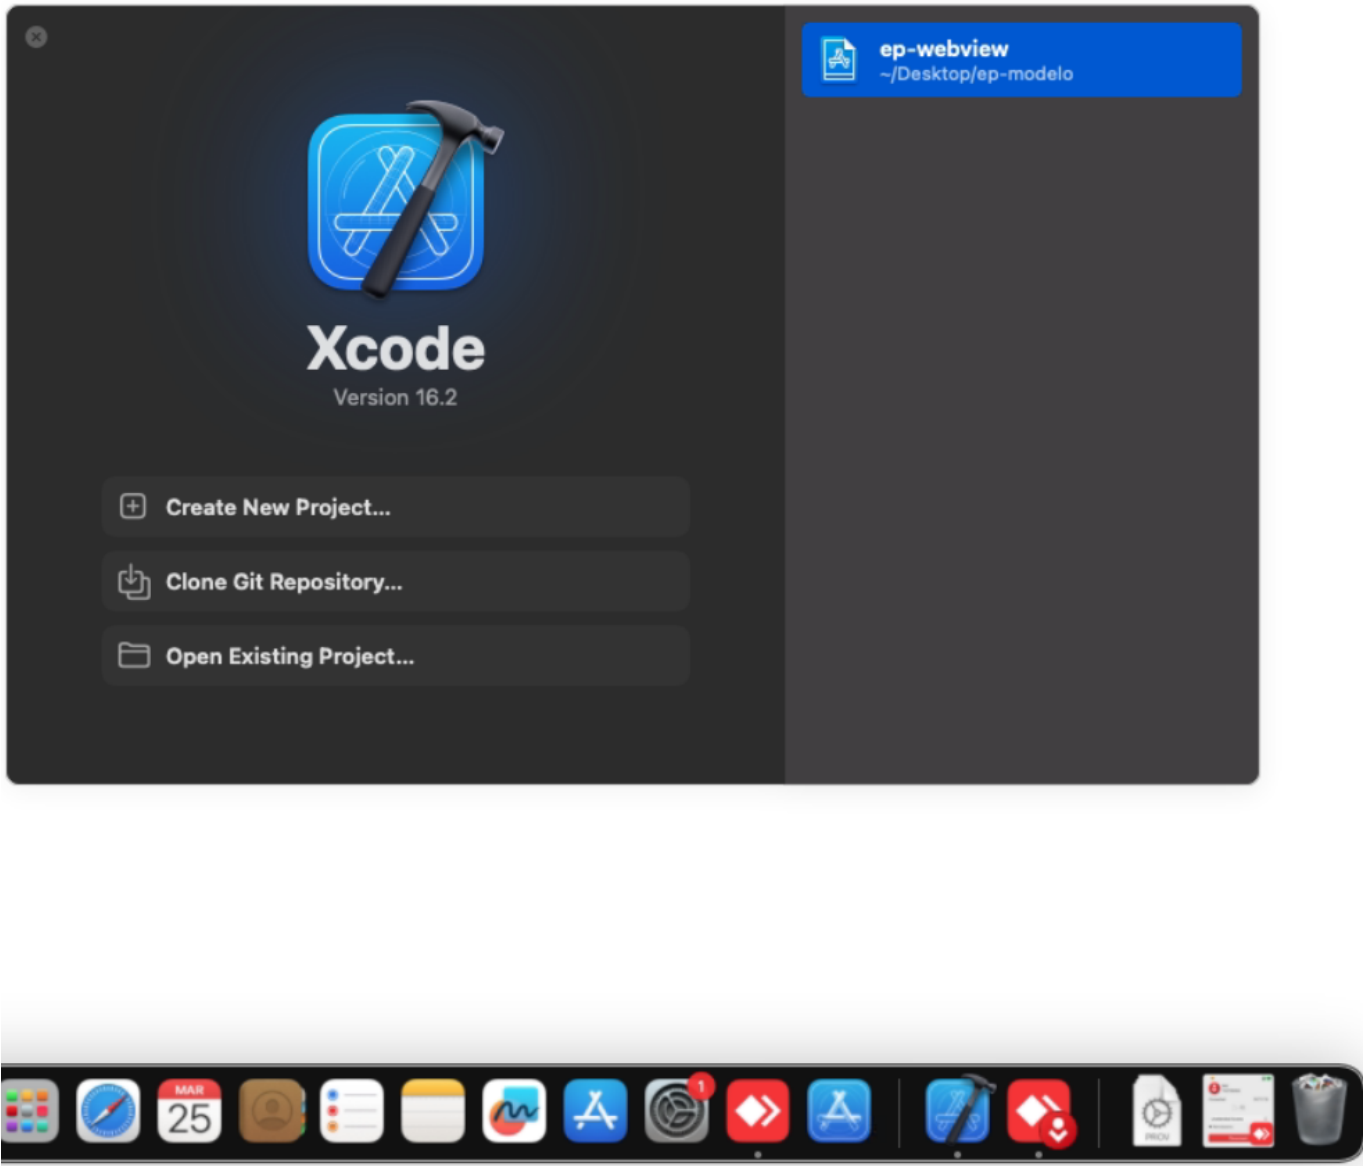

Troque o ícone do aplicativo para logo desejado. Vá no diretório do projeto. Acesse: **Assets.xcassets** depois em **AppIcon.appiconset** e substitua o arquivo **AppIcon.jpg** pelo mesmo nome.

MiniMac - Xcode

A Apple exige que o ícone seja **1024x1024** e não contenha fundo transparente recomendando então o tipo **jpg**

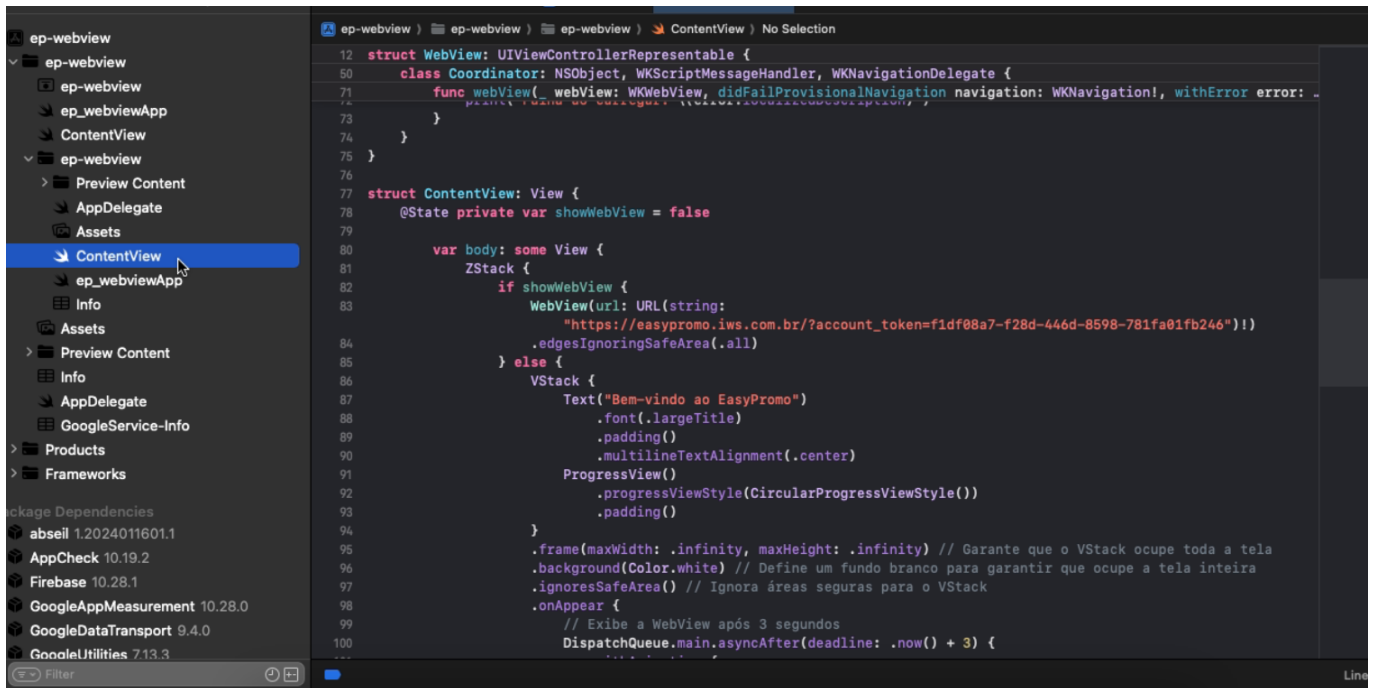

Abra o **XCode** e o projeto modelo do **Webview - EasyPromo**.

MiniMac - Xcode

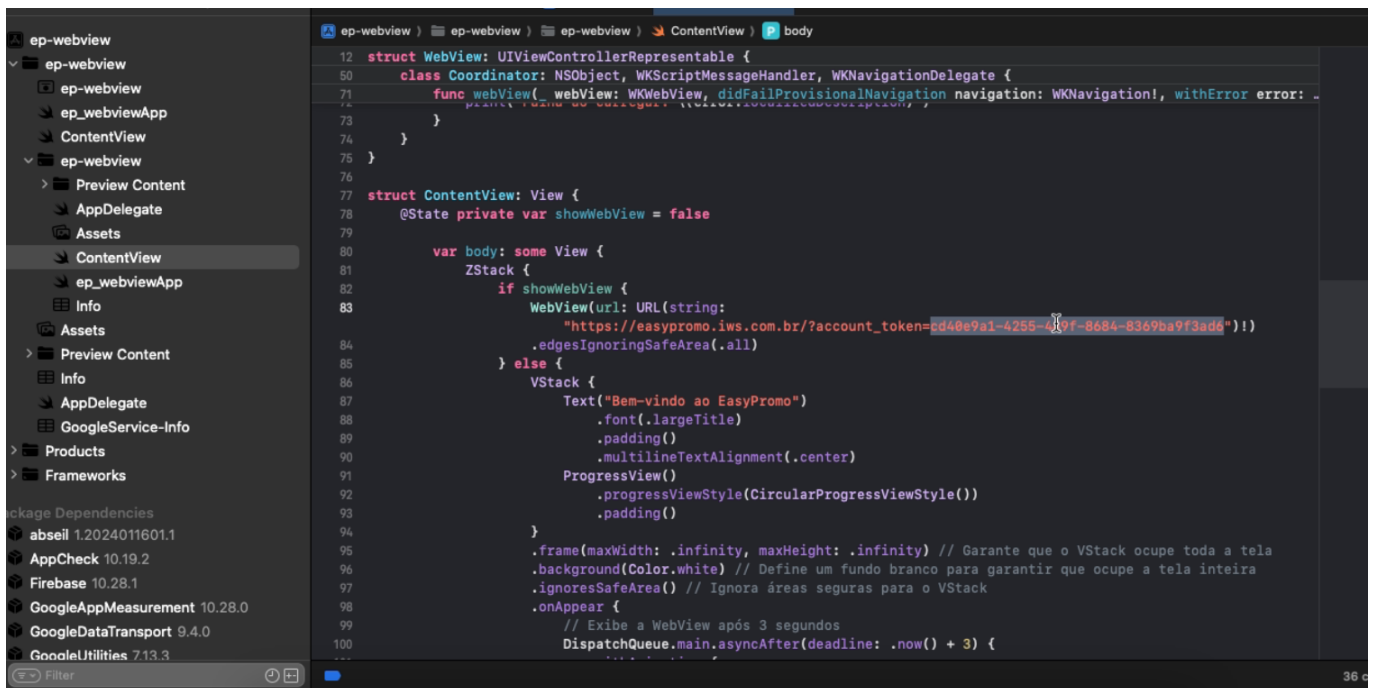

Configurando projeto EasyPromo

No diretório do lado esquerdo localize o **Content View**.

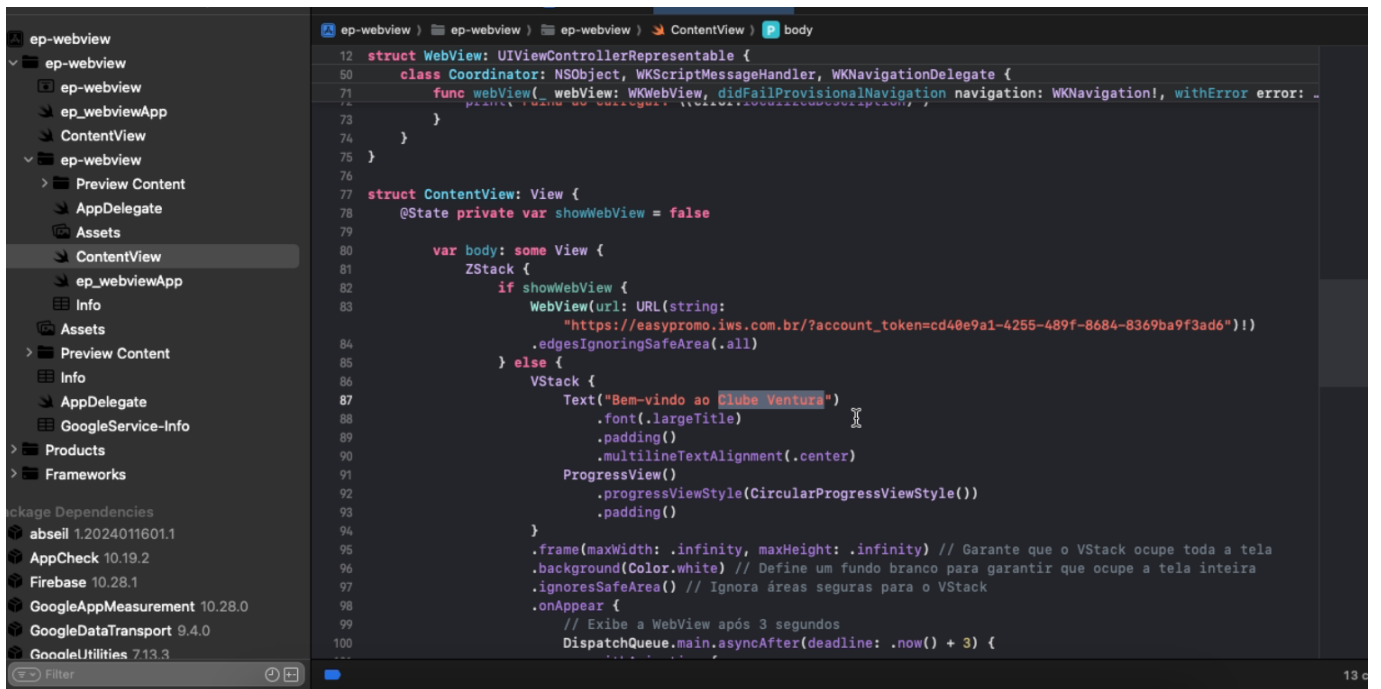

MiniMac - Xcode

Após abrir o **Content View** localize a **URL** do **EasyPrmo** e troque pelo token da conta que será utilizado no aplicativo.

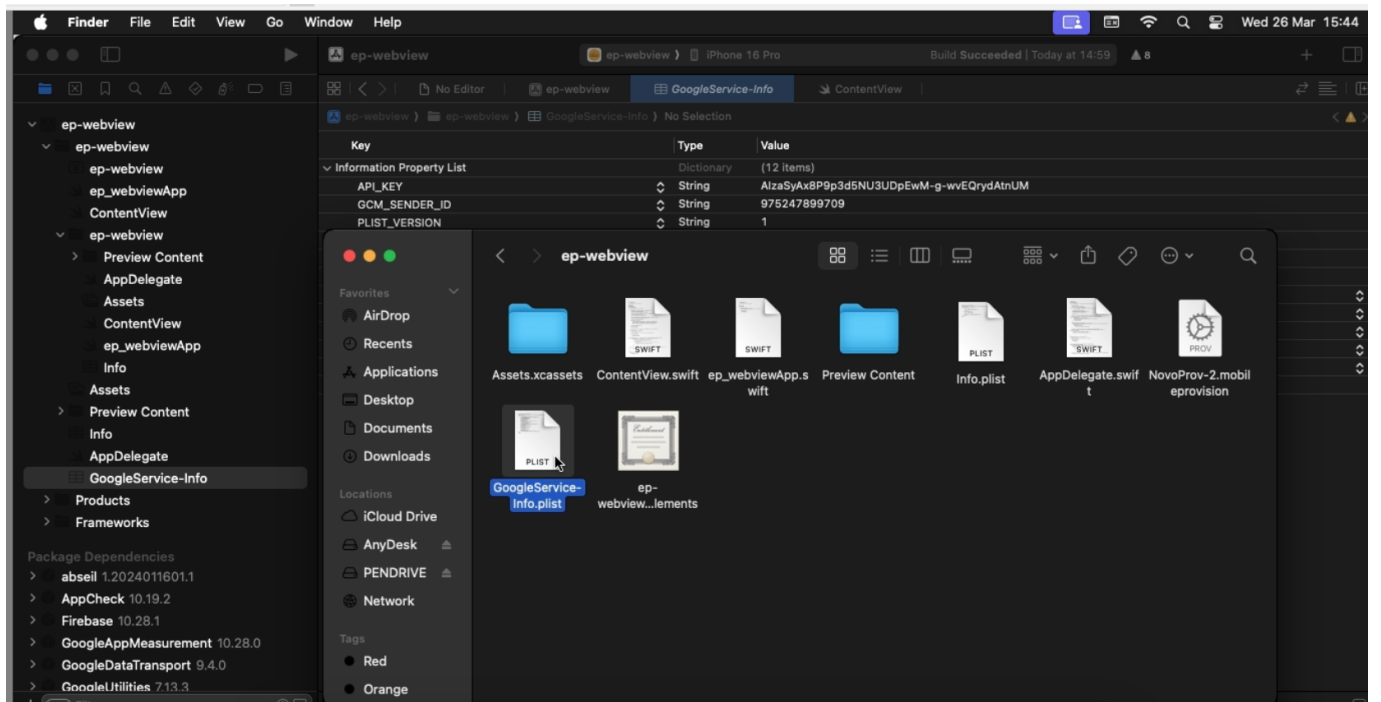

MiniMac - Xcode

Localize a mensagem que é exibida ao carregar a **URL** do **EasyPromo** e informe o nome da aplicação.

MiniMac - Xcode

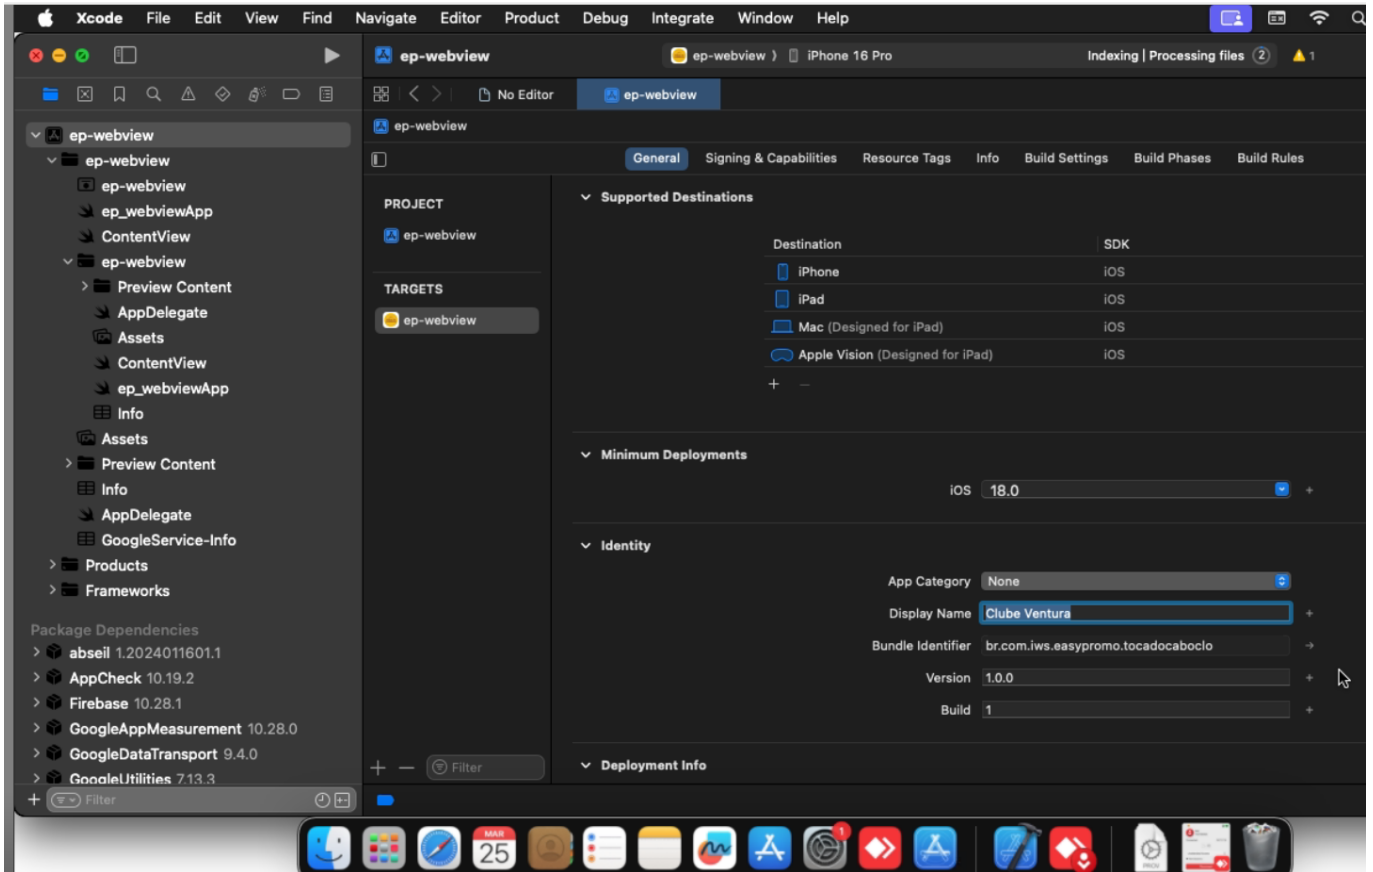

Atualize o arquivo **GoogleService-Info.plist** do Firebase no projeto.

MiniMac - Xcode

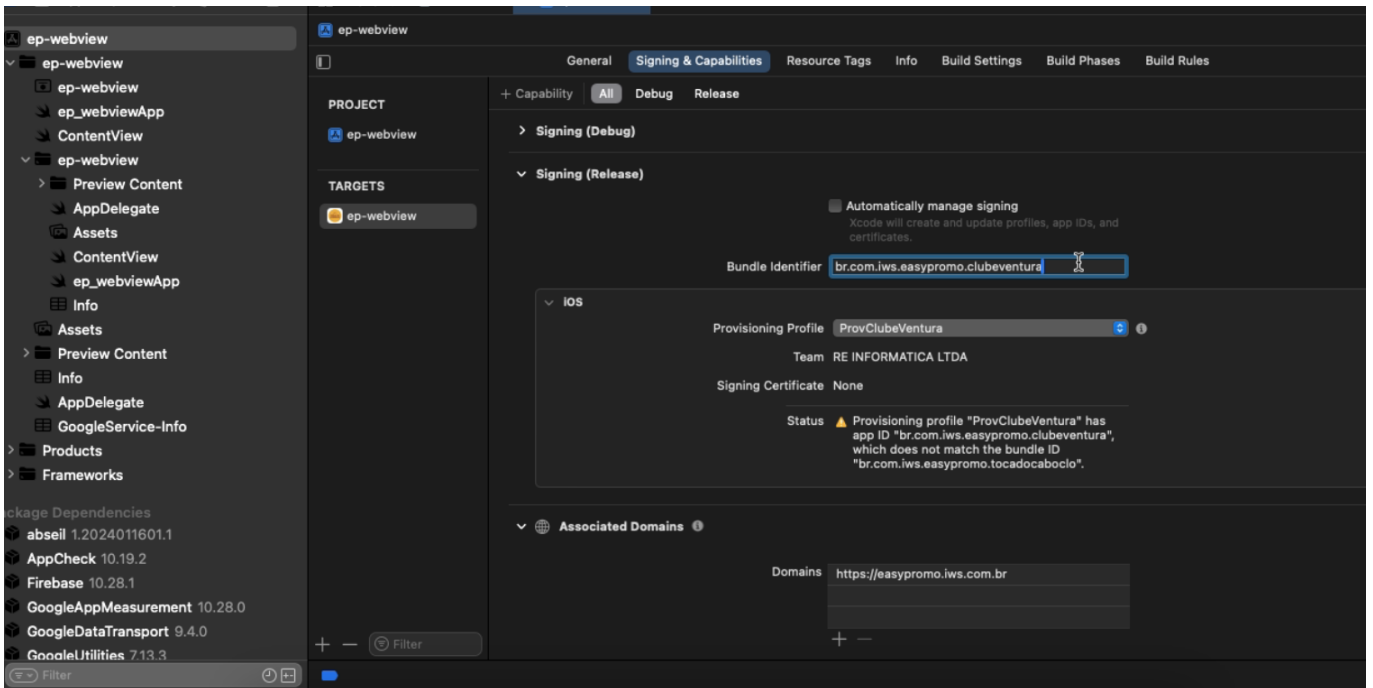

Configurando certificado

No lado esquerdo, clique no **ep-webview** do diretório, e ao abrir o painel do projeto clique na guia **General** e defina o nome do app no **Display Name**.

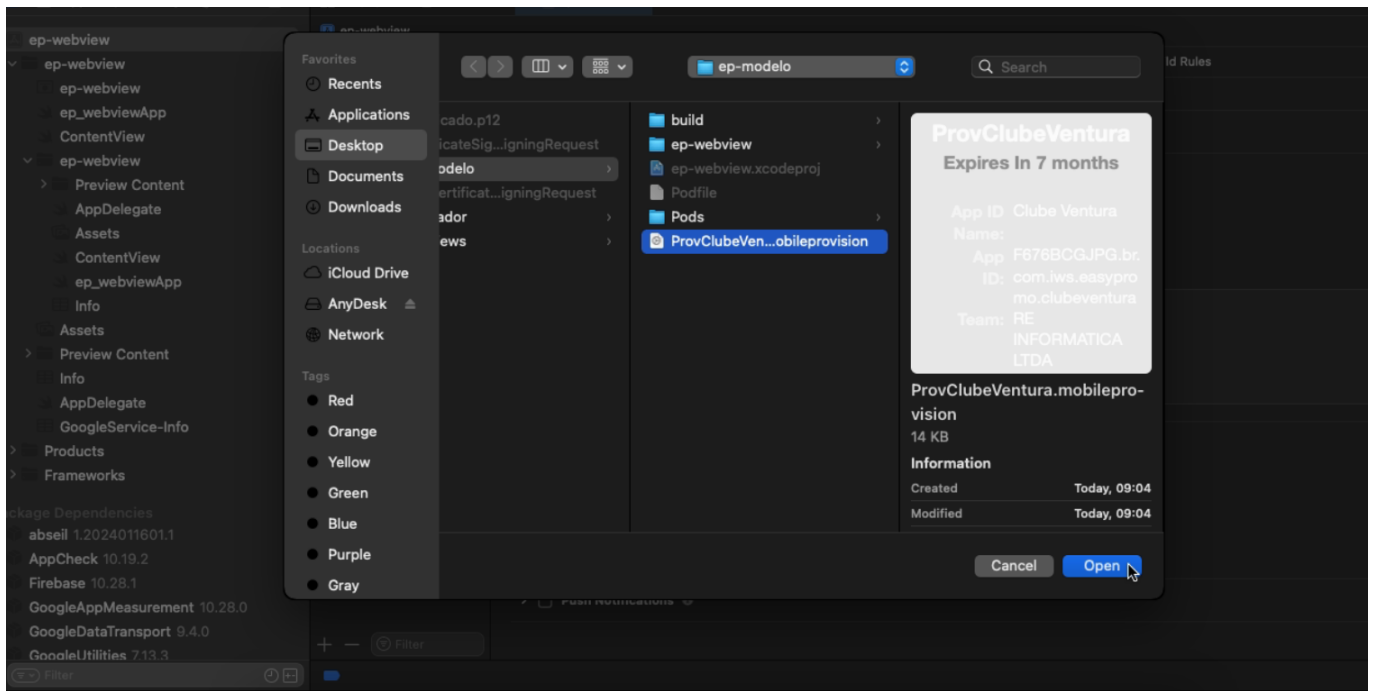

MiniMac - Xcode

Agora vá na guia **Signing & Capabilities**. Vá em **Signing (Release)** e no campo **Bundle Identifier** informe o nome do pacote do projeto.

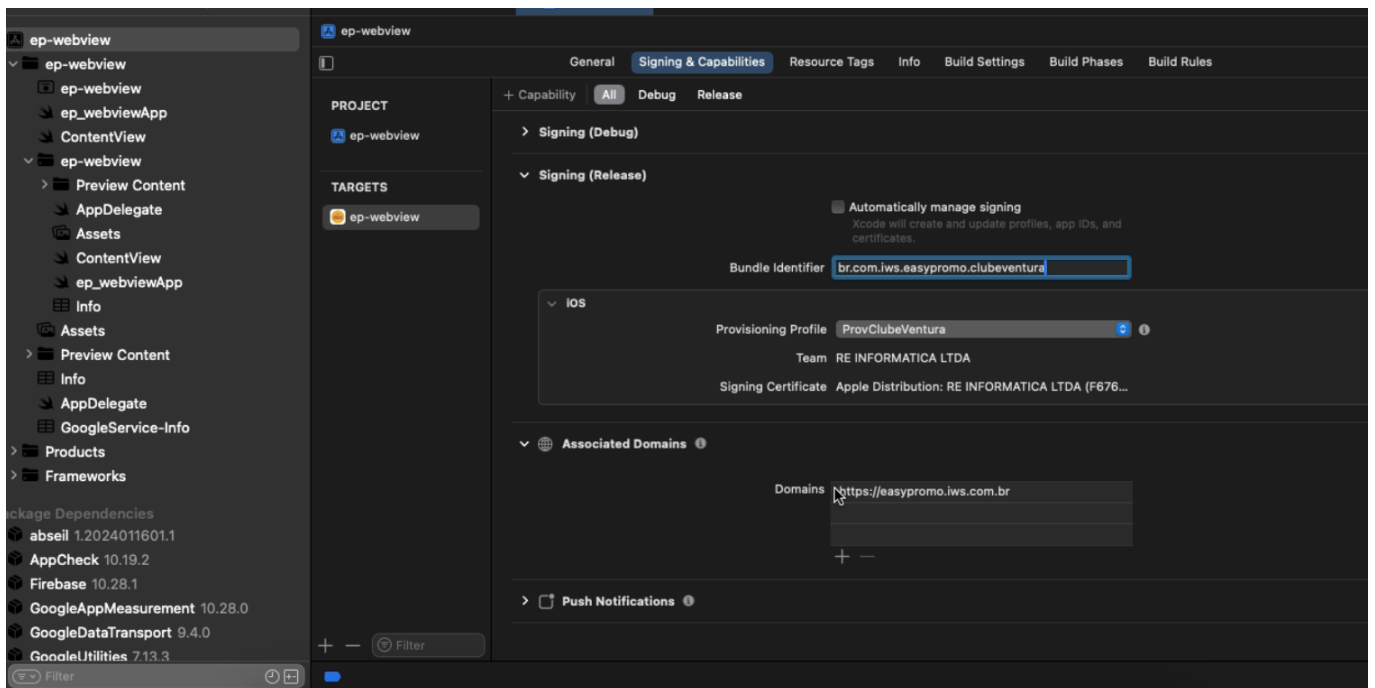

MiniMac - Xcode

Em **Provisioning Profile** selecione o certificado de perfil do app gerado para esse pacote definido e clique no botão **Open**.

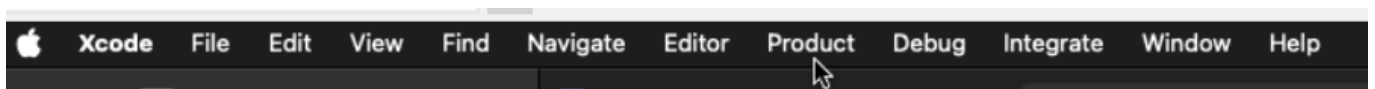

MlNiMac - Xcode

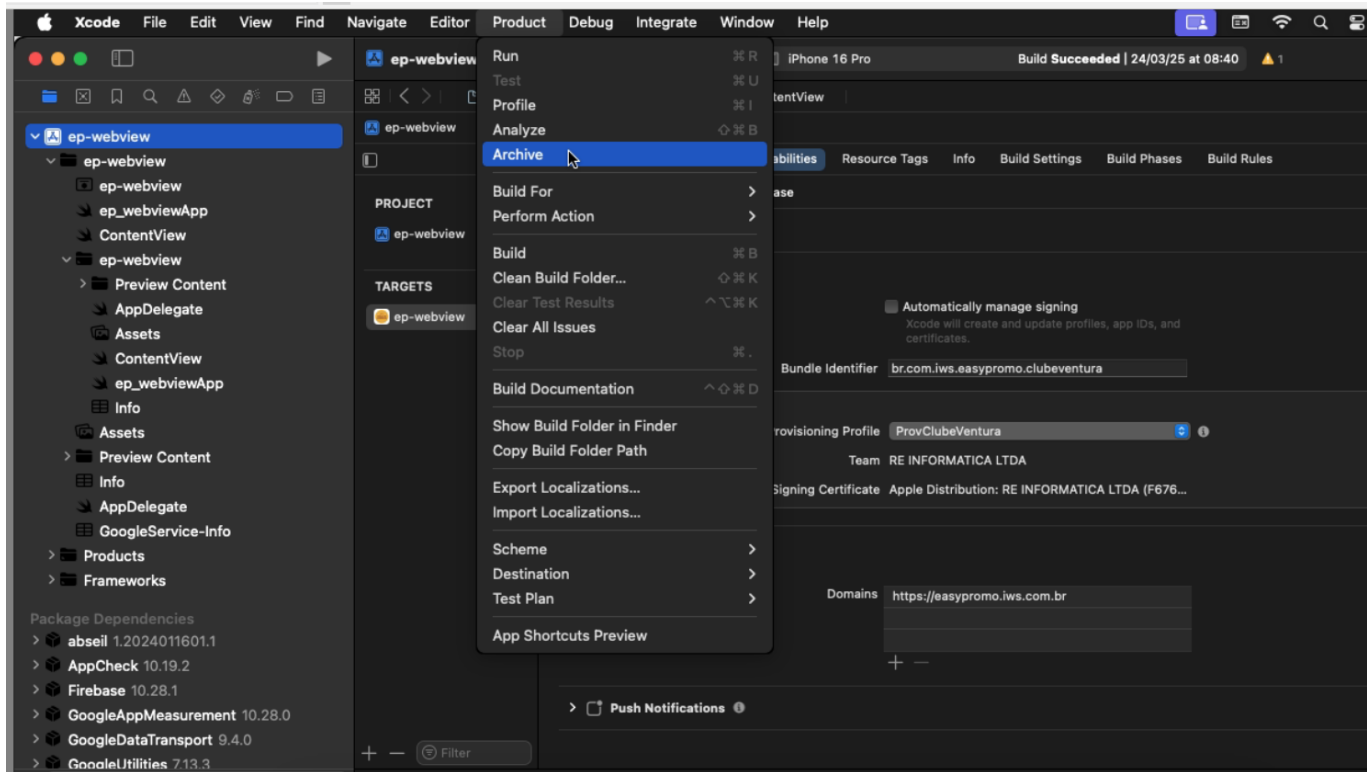

MlNiMac - Xcode

Para enviar o **release** do aplicativo para a plataforma da **App Connect**. Clique no menu **Product**.

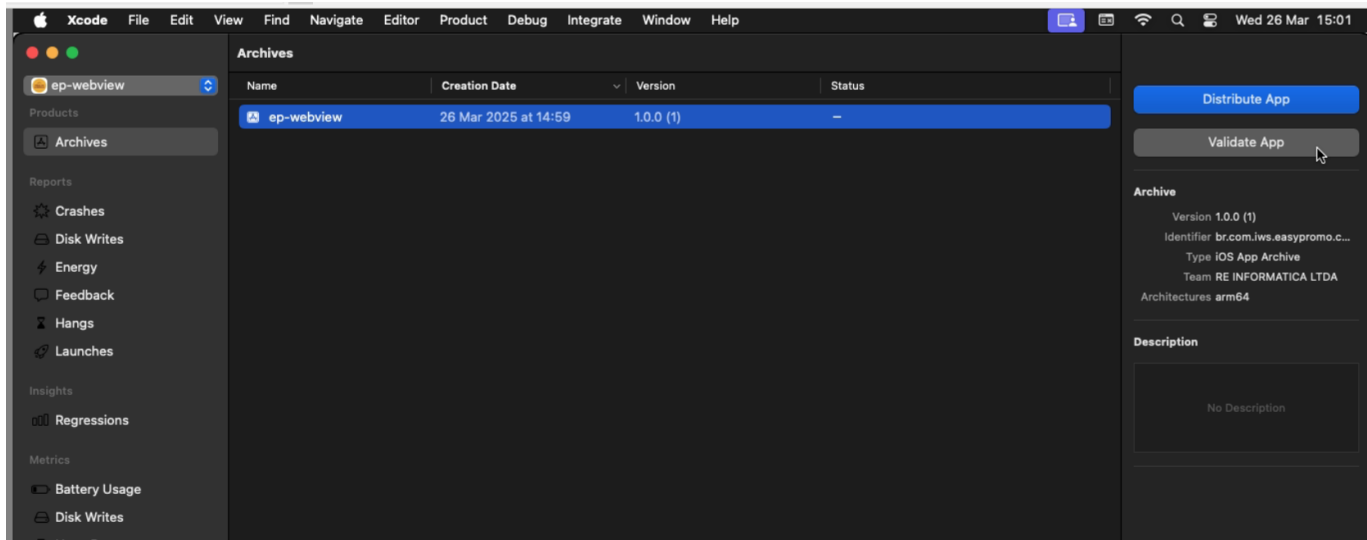

MlNiMac - Xcode

Depois clique em **Archive**.

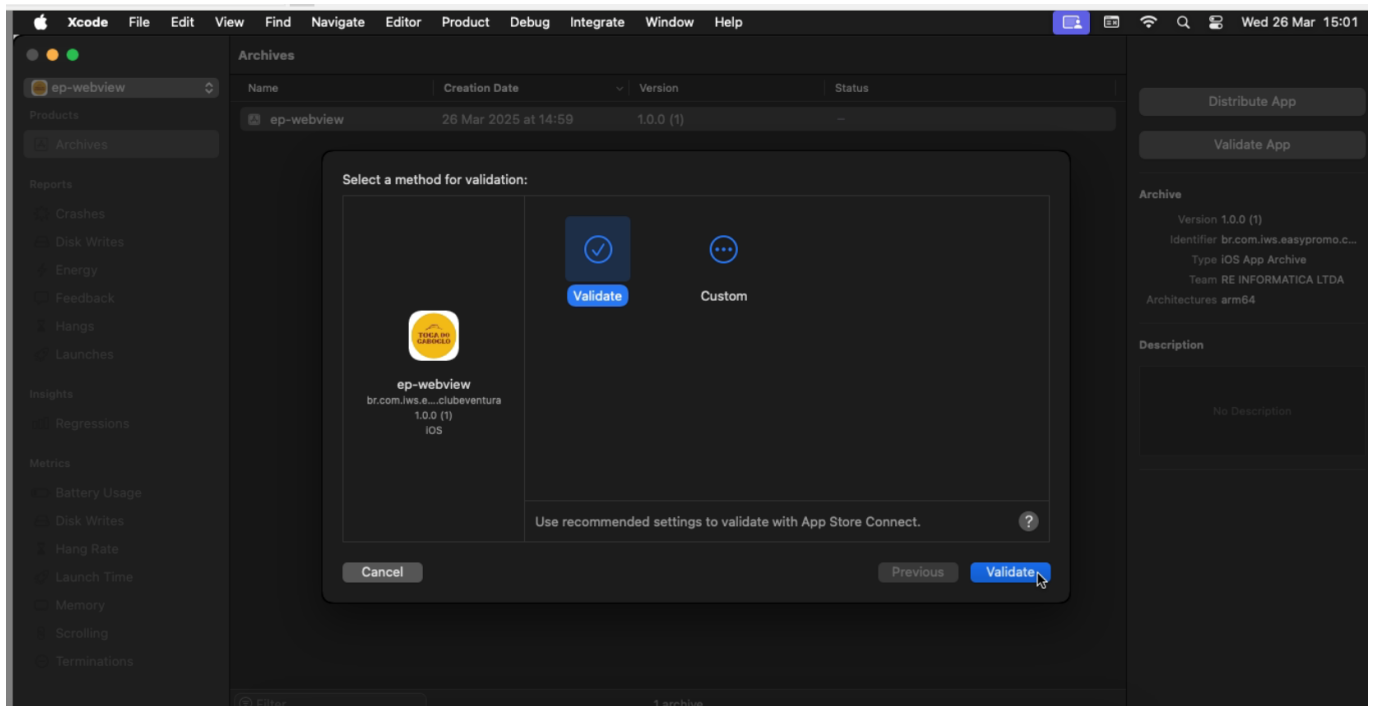

MiniMac - Xcode

Depois clique no botão **Validate App**, para confirmar se está tudo de acordo com as políticas da Apple.

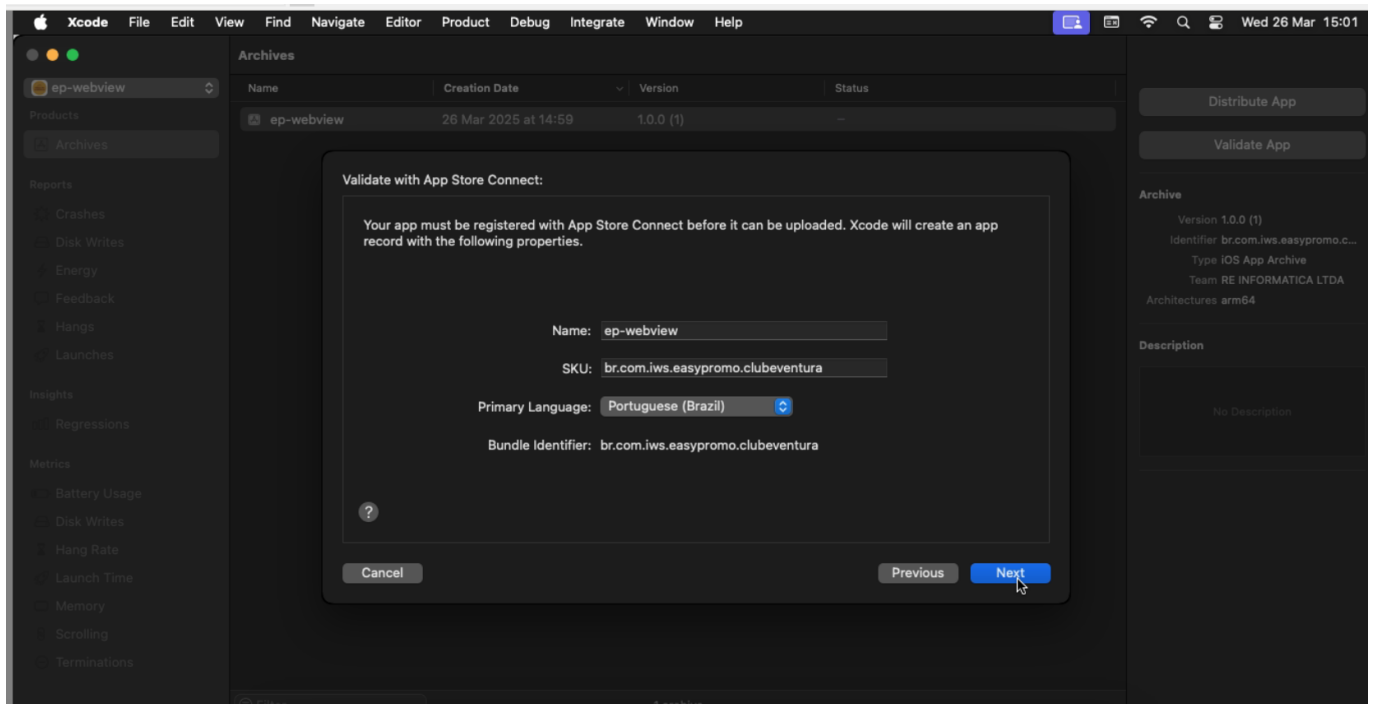

MiniMac - Xcode

Depois clique no botão **Validate**.

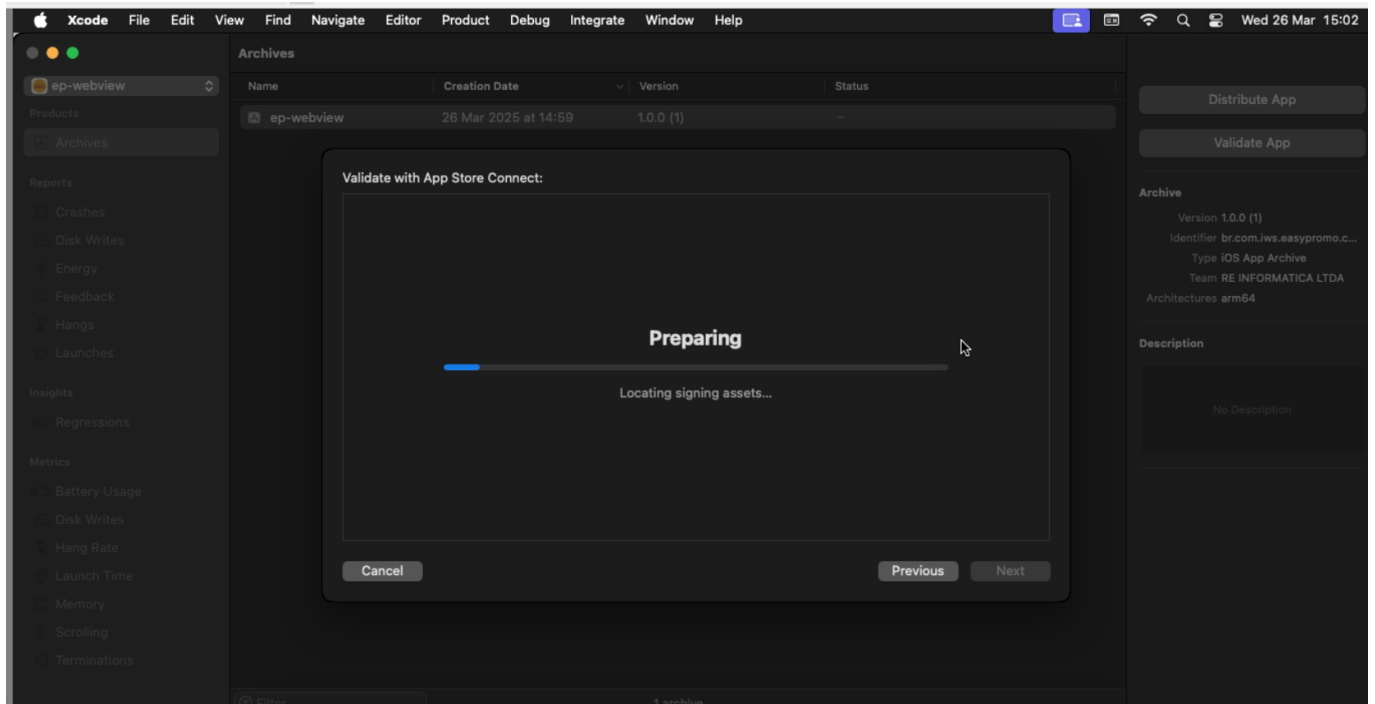

MiniMac - Xcode

Selecione a linguagem primária do App e clique no botão **Next**.

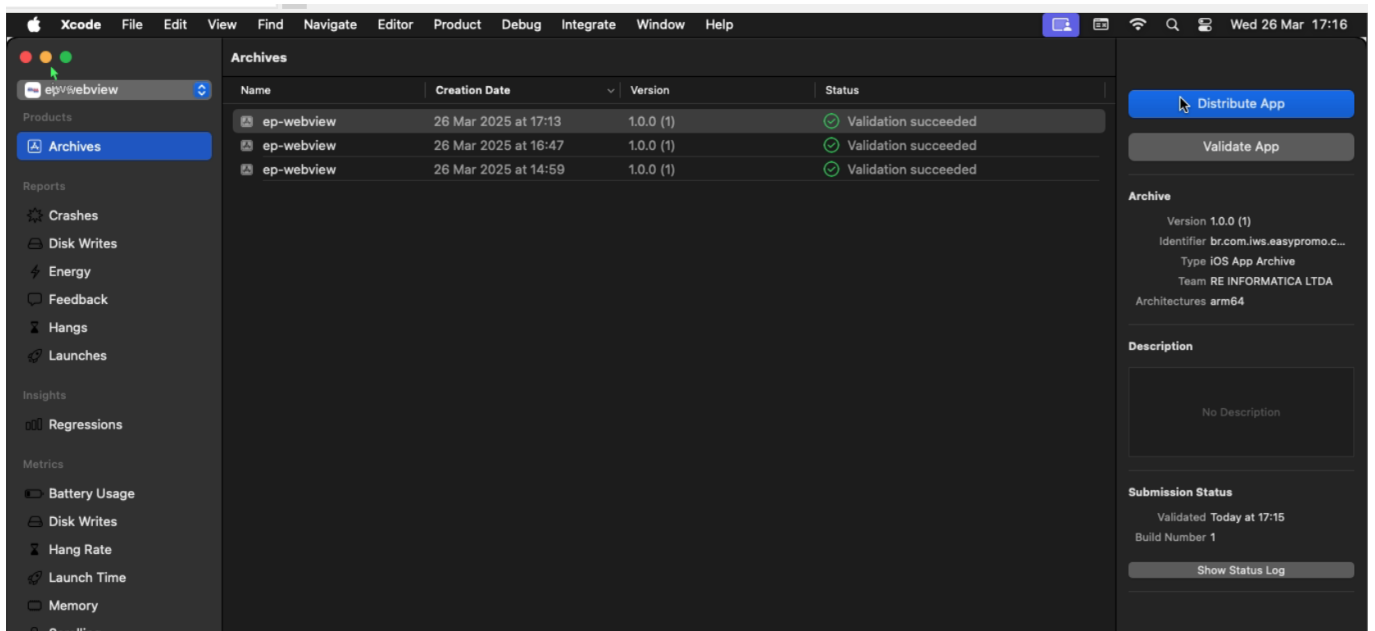

MiniMac - Xcode

Depois aguarde a validação.

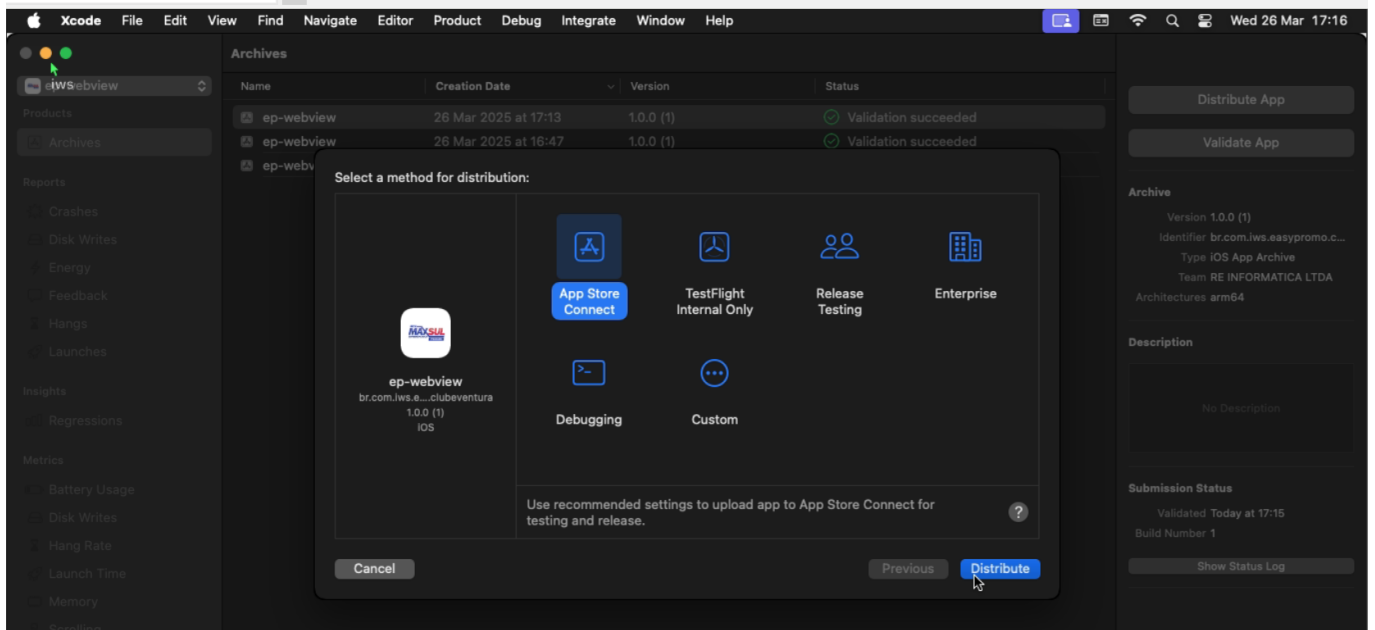

MiniMac - Xcode

Depois clique no botão **Done** para concluir. Após voltar para tela de validações clique no botão **Distribute App**.

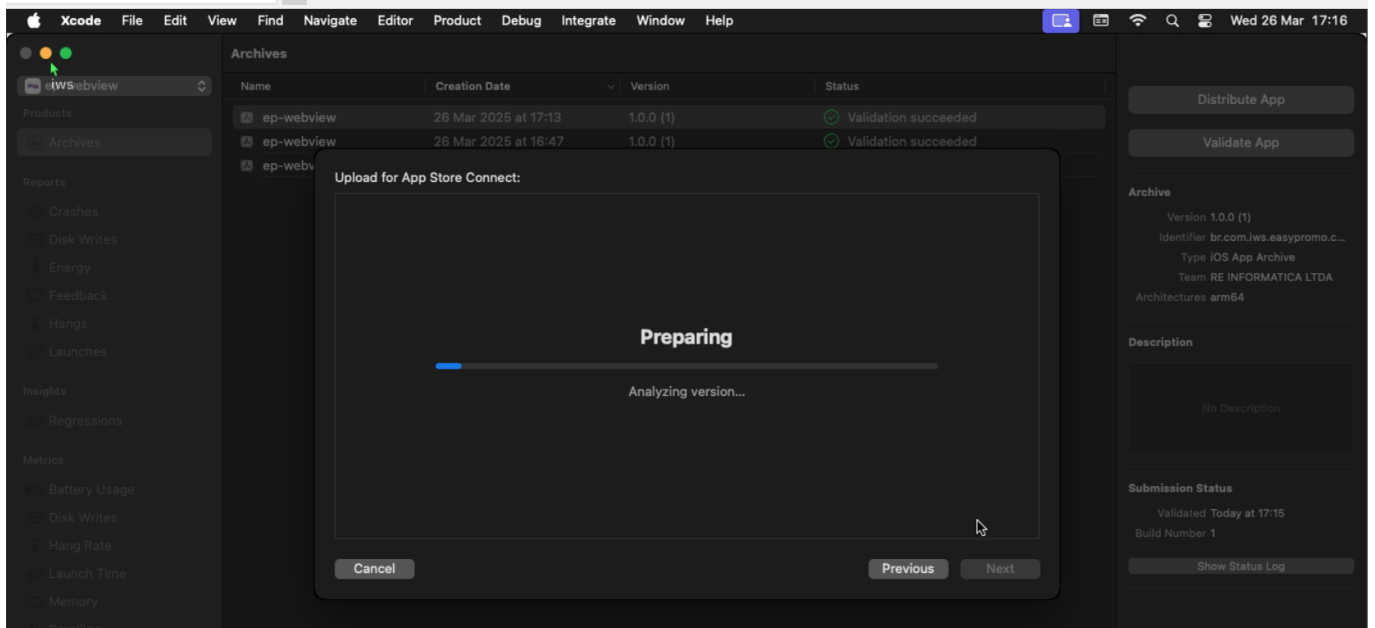

MiniMac - Xcode

Depois selecione **App Store Connect** e clique no botão **Distribute**.

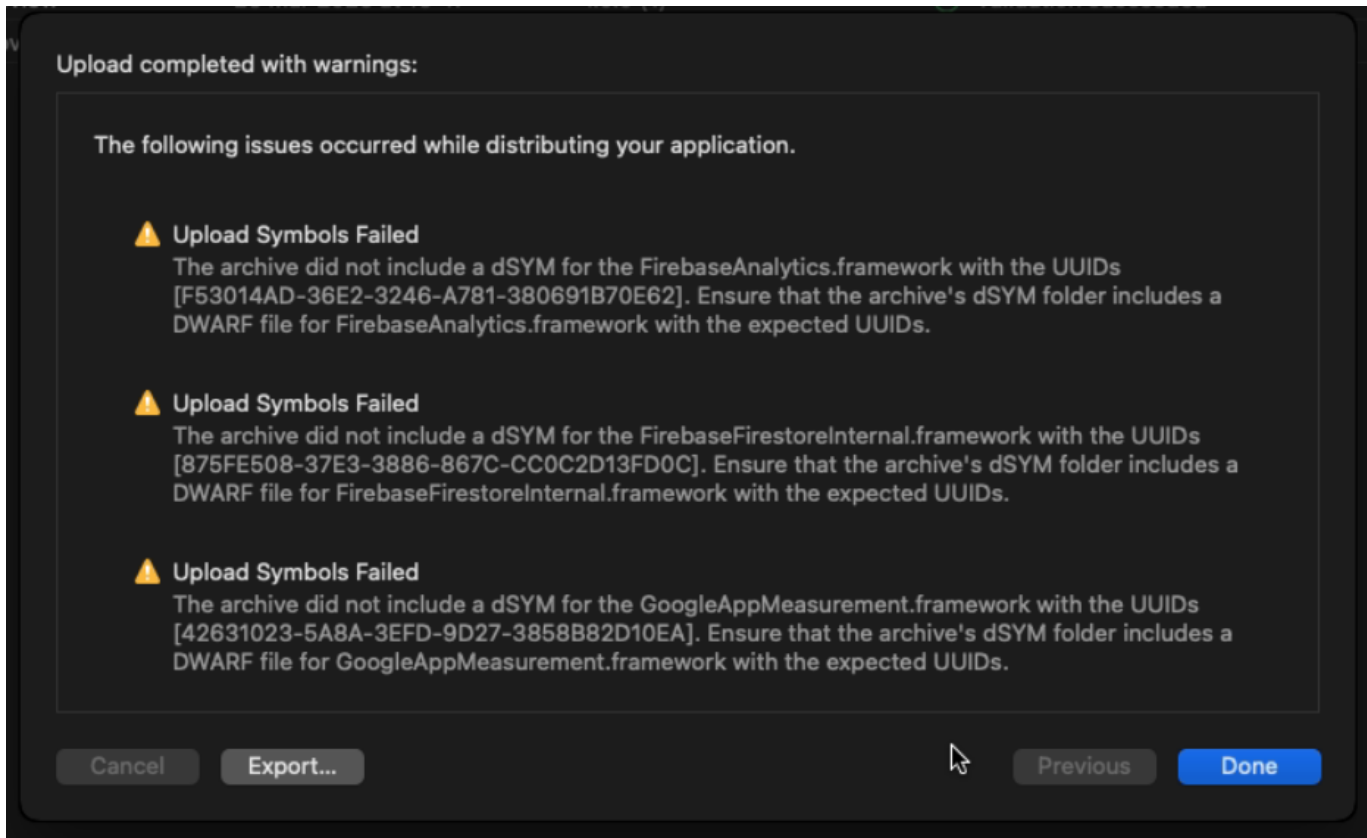

MiniMac - Xcode

E aguarde concluir.

MiniMac - Xcode

Alguns avisos serão listados, nesse caso é referente ao certificado gerado pela Firebase da Google. Clique em **Done** para continuar.

MiniMac - Xcode

Após concluir a tela de validação irá informar o status da build.

Name	Creation Date	Version	Status
ep-webview	26 Mar 2025 at 17:13	1.0.0 (1)	Uploaded to Apple

MiniMac - Xcode

Criar a página Apple Store

Para criar a página do aplicativo na **Apple Store**, precisa acessar a plataforma [App Store Connect](#)

Os dados de login se encontram na planilha, a autenticação de dois fatores está ativada, mas o código é enviado direto no MiniMac como padrão, mas se for necessário tem como enviar o código no email da conta.

Ao se autenticar clique em **Apps**.

our next app version.

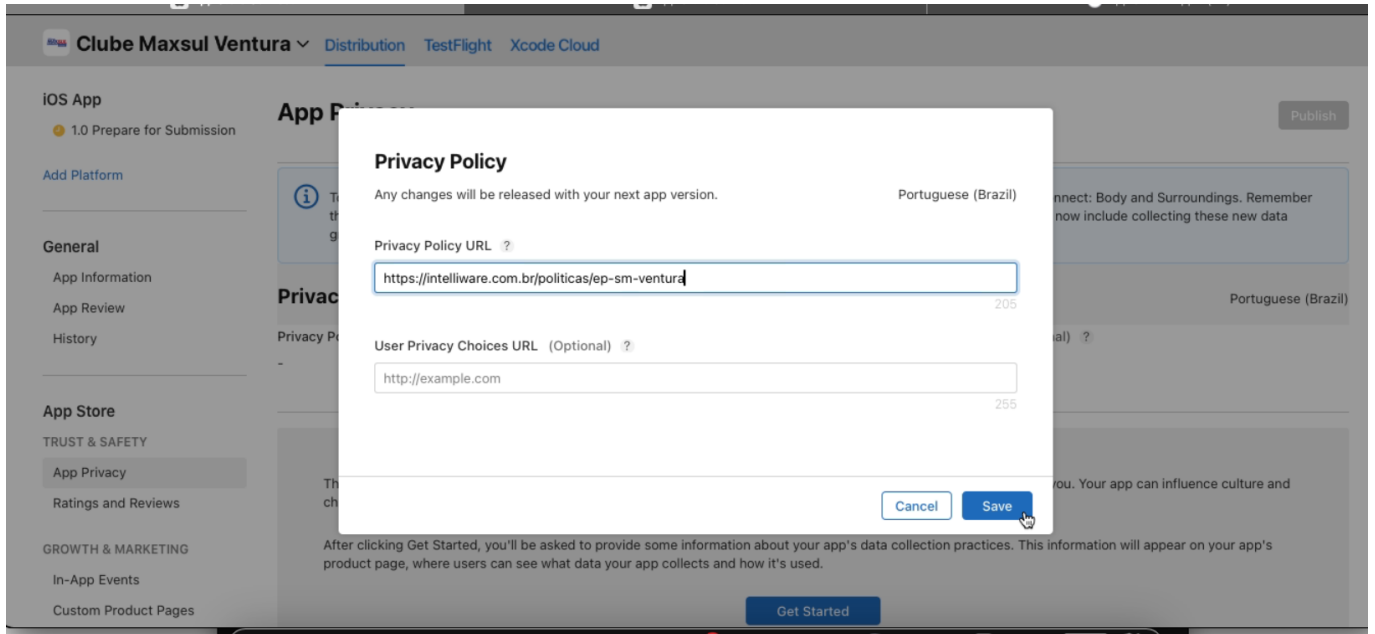

App Store Connect

Vá em **App Store** do lado esquerdo e clique em **App Privacy**. Localize **Privacy Policy** e clique em **Edit**.

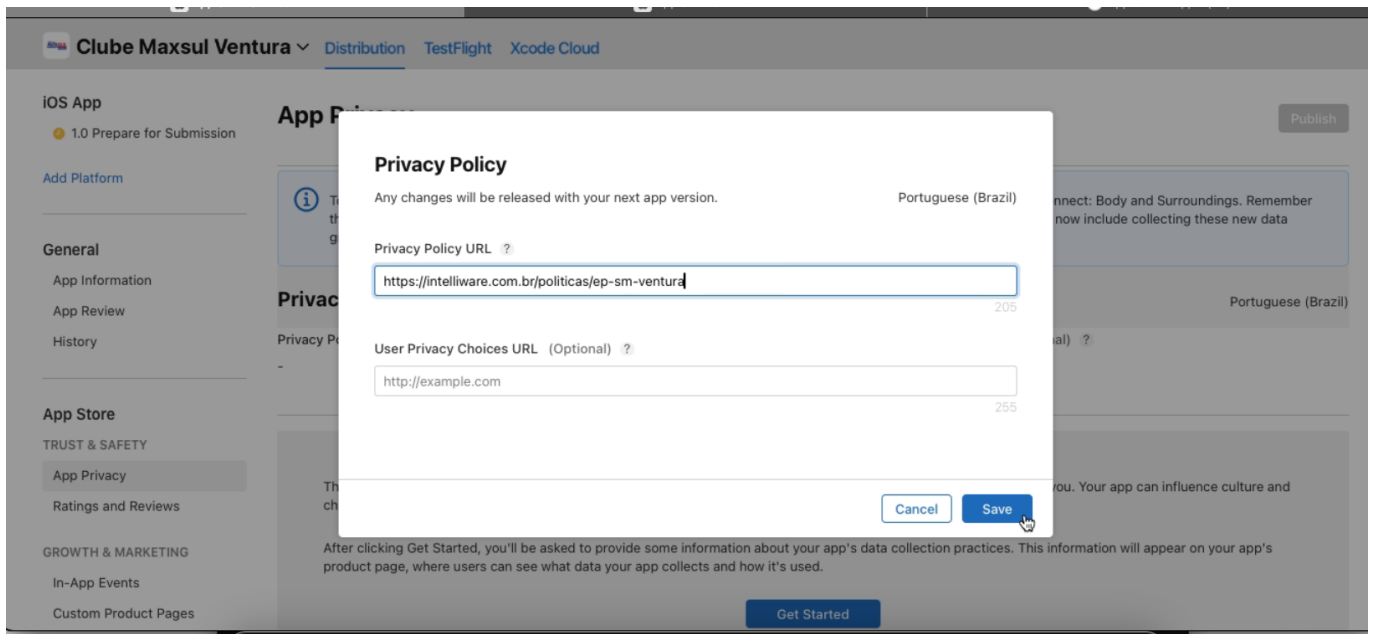

App Store Connect

Preencha o campo **Privacy Policy URL** e depois clique no botão **Save**

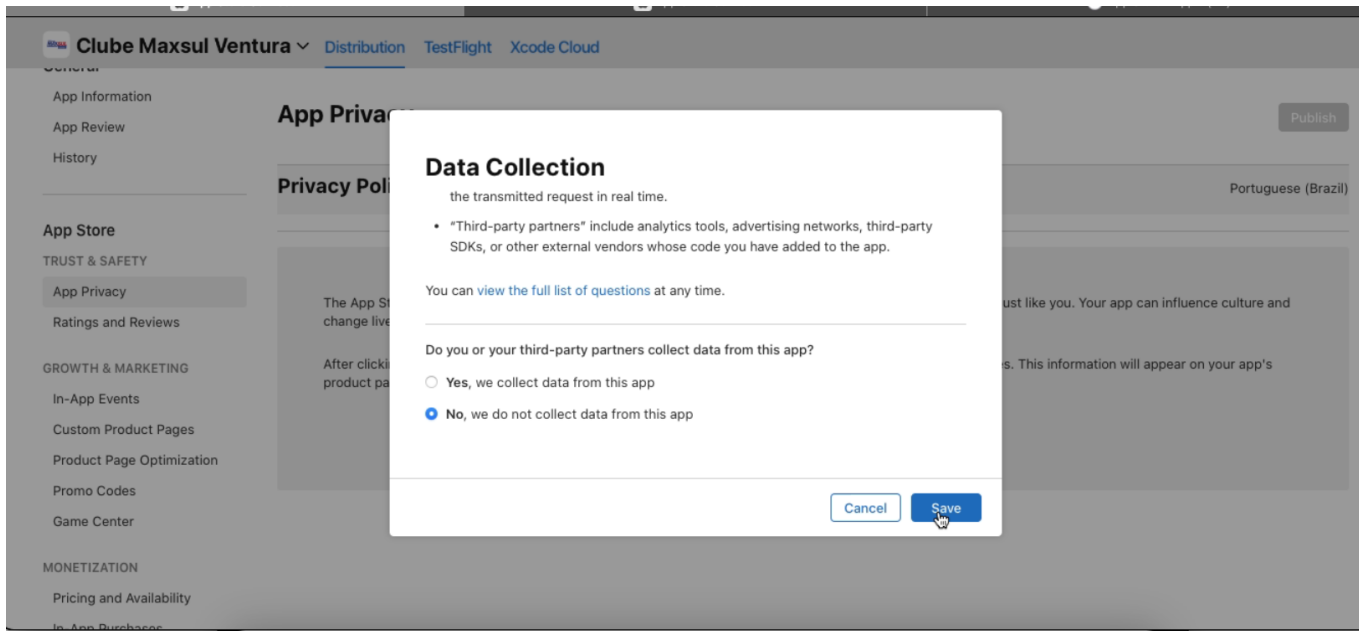

App Store Connect

Ainda em **App Privacy** clique no botão **Get Started**.

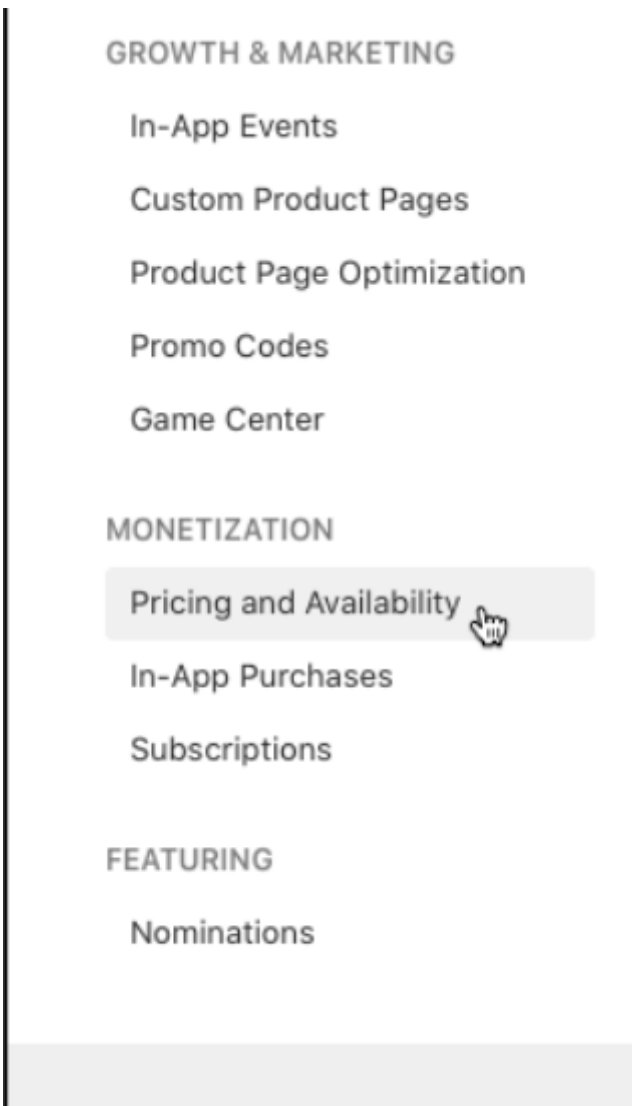

App Store Connect

Em **Data Collection** selecione **No, we do not collect data from this app** e depois clique no botão **Save**.

App Store Connect

Do lado esquerdo vá em **MONETIZATION** e depois em **Pricing and Availability**

App Store Connect

E clique em **Add Pricing**.

The screenshot shows the Xcode interface for an app named "Clube Maxsul Ventura". The "Distribution" tab is selected, and the "Pricing and Availability" section is active. On the left, there is a sidebar with navigation options: "iOS App" (with a sub-item "1.0 Prepare for Submission"), "Add Platform", "General" (with sub-items "App Information", "App Review", "History"), "App Store", and "TRUST & SAFETY" (with sub-items "App Privacy", "Ratings and Reviews"). The main content area is titled "Pricing and Availability" and includes a "Price Schedule" section. A message in the "Price Schedule" area reads: "Set up a starting price. The price determines the App Store price and your proceeds. To sell your app, you must have a Paid Application agreement. [Learn More](#)". Below this message is a blue button labeled "Add Pricing". A "Save" button is visible in the top right corner of the "Pricing and Availability" section.
